## Current Position

Researcher and Graduate Student, Insect Phylogeny and Evolution Lab, Jeonbuk National University, Korea.  
2024–present

## Education

M.S.A., Jeonbuk National University, Korea 2024–present  
Advisor: Prof. Dr. Sora Kim  
B.S.A., Jeonbuk National University, Korea 2018–2024

## Experience

Researcher, Insect Phylogeny and Evolution Lab, Jeonbuk National University 2024–present  
Advisor: Prof. Dr. Sora Kim  
Undergraduate student, Insect Phylogeny and Evolution Lab, Jeonbuk National University 2023–2024  
Advisor: Prof. Dr. Sora Kim  
Visiting Researcher, Natural History Museum of Jeonbuk National University 2021–2022  
Principal Collaborator: Ms. Ji-in Yang  
Undergraduate student, Insect Taxonomy Lab, Jeonbuk National University 2021–2022  
Advisor: Prof. Dr. Yong Hong  
Excellence Poster Presentation Prize, 2024 Autumn Conference of Korean Society of Applied Entomology (Hwaseong, South Korea) 2024  
Excellence Insect Photography Prize, 2024 Autumn Conference of Korean Society of Applied Entomology (Hwaseong, South Korea) 2024

## Publications

2. **Han, H.** & Kim, S. (2025) First records of genera *Chrysopera* Hampson, 1894 and *Entomogramma* Guenée, 1852 of the subfamily Erebininae (Lepidoptera, Erebididae) from South Korea. Biodiversity Data Journal. 13:e139471. DOI: <https://doi.org/10.3897/BDJ.12.e139471>

1. **Han, H.**, Ulzijargal, B., Kim, S. (2024) Taxonomic Review of the Genus *Thyas* Hübner (Lepidoptera: Noctuoidea: Erebididae) from Korea, including the First Description of *T.coronata*. Korean Journal of Applied Entomology. 63(1): 5-11. DOI: <https://doi.org/10.5656/KSAE.2024.01.1.048>

## Scientific Communications

6. **Han, H.** & Kim, S. (2025) First records of two species within the subfamily Erebininae (Lepidoptera, Erebididae) from the Korean Peninsula. Spring Conference of Korean Society of Applied Entomology & The Entomological Society of Korea 2025 (Hongcheon, South Korea). [Poster]
5. **Han, H.** & Kim, S. (2024) Pictorial key of underwing moths (Lepidoptera: Erebididae: *Catocala*) from Korean Peninsula. Autumn Conference of Korean Society of Applied Entomology 2024 (Hwaseong, South Korea). [Poster]
4. **Han, H.** & Kim, S. (2024) Species diversity comparisons of subtropical and tropical Lepidoptera in Vietnam: Noctuoidea fauna and flora. Spring Conference of Korean Society of Applied Entomology & The Entomological Society of Korea 2024 (Cheongju, South Korea). [Poster]
3. **Han, H.** & Kim, S. (2023) A historical review of the classification of subfamily Erebininae (Lepidoptera: Erebididae) in Korea. Autumn Conference of Korean Society of Applied Entomology 2023 (Pyeongchang, South Korea). [Oral communication]
2. **Han, H.**, Ulzijargal, B., Kim, S. (2023) The first record of *Thyas coronata* (Fabricius, 1775) (Lepidoptera: Noctuoidea: Erebididae) in Korean Peninsula. Spring Conference of Korean Society of Applied Entomology & The Entomological Society of Korea 2023 (Cheongju, South Korea). [Poster]
1. **Han, H.** & Kim, S. (2022) Discovery of Butterflies (Lepidoptera) from Bach Ma National Park in Southern Vietnam. Autumn Conference of Korean Society of Applied Entomology 2022 (Gyeongju, South Korea). [Poster]

## Fundings

### As A Collaborator

7. Transcriptome-Based Phylogenetic Analysis and Inference of Defense Mechanism Evolution in the Ditrysiinae (Lepidoptera), National Research Foundation of Korea 2024.04–2025.03
6. Honam National Institute of Biological Resources's Native Species Survey Project, Honam National Institute of Biological Resources 2024.04–2024.12
5. 2024 New and Emerging Pest Occurrence and Ecological Survey, Korea Forestry Promotion Institute 2024.04–2024.12
4. AI-based Plant Disease Monitoring and Precision Diagnosis Technology Development, Jeonbuk National University 2023.07–2023.12
3. AI-based Pest and Disease Management System, Korea Institute of Planning and Evaluation for Technology in Food, Agriculture and Forestry 2023.06–2023.12
2. Species delimitation, Gene-correlation and Biogeography of the genus *Promalactis* (Lepidoptera: Oecophoridae) based on Wing pattern evolution, National Research Foundation of Korea 2022.03–2023.05
1. Phylogeography of earthworm in enchytraeid group (Clitellate: Enchytraeidae), National Research Foundation of Korea 2021.04–2022.02

## Research interests

1. Phylogenomics of Lepidoptera (especially Noctuoidea, Erebidae) and their high biodiversity
2. Coevolution of insects, plants, and microorganisms
3. Evolutionary study by integrative approach with fossil records, ecological features, and omics data
4. Biogeography
5. Population genetics and species delimitation for detecting over- or underestimation of specific species
